

# myNapier

powered by Microsoft Azure

## Transform your hospital operations and improve profitability

myNapier is a cloud based Hospital Information System from Napier Healthcare in association with Microsoft®. It is fully configurable with complete self-service functionality.

### Cloud-based HIS

Scalable and flexible HIS that can be accessed from anywhere.

### Meets Global Standards

Compliance with standards and offers latest innovations .

### Modular Offerings

With over 15 modules for efficient operations and management of hospital.

### Low TCO

Subscription fee model with no upfront License fee and no need to buy hardware.

### User Experience

Enhanced user experience for greater adoption and streamlined processes.

### Faster Implementation

4-6 weeks implementation time. Build with scalability & flexibility in mind.

### Collaboration

Secure and easy data sharing. Enables remote access of patient clinical information.

### Multi-Facility

Supports consolidation of Financials, Centralised inventory and Portability of Patient records from one facility to another leading to increased Patient Satisfaction scores.

### Cost Effective

A subscription fee model. It helps reduce data storage cost and lowers maintenance cost.

## myNapier leveraging the features of Microsoft Azure

- myNapier is hosted on Microsoft Azure
- Usage of SQL DB as a Service
- Role based access control with Azure Active Directory and Resource Manager
- Self-service diagnostics
- Auto scale of Azure VM

## Maximize Operation Efficacy and Quality With A Versatile Solution

### Optimized Financial Flow

Configurable billing engine and modules for pan-India Market needs. It can be integrated with payer and government systems — a business intelligence tool to transform the financial planning process.

### Manage Your Hospital Effortlessly

It supports Multi-Facility hospitals to function as one entity, helping hospitals of all types and sizes standardize workflows and grow their business with integrated solutions.

### Streamline Operation

Allows exchange and consolidation of data across multi-facilities including central laboratory and central procurement to enable better decision making, resulting in higher-quality care.

### Top Rated EMR Vendor

Napier Hospital Information System nominated as one of the Top Rated EMR Vendor by KLAS

## Ask For myNapier With Artificial Intelligence

Innovative solution in healthcare with focus on Speech-to-text for Clinical Staff, Interactive EMR, single click e-prescription generation, and many more. Other bolt-on solutions include Telemedicine, Covid Assessment and AI based Pneumonia predictor.
